protection

### 56 Series Dust & Water Protected Sockets to IEC 309

## IP44 or IP67, the choice is yours!

Further flexibility is provided with all internal socket housings able to be rotated to any clock position.

IP44 (56SO\*\*\*/\*/44)

IP67 (56SO\*\*\*/\*/67)

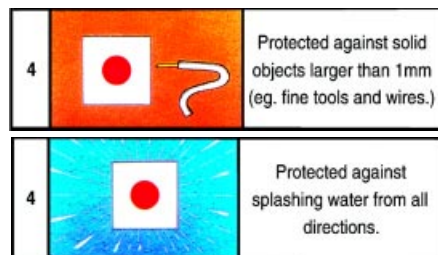

For the first time, Clipsal 56 Series flanged sockets are available with an IP67 rating for complete protection from dust and water.

Together with the popular IP44 Range, the new IP67 sockets provide a comprehensive industrial socket range for any application. Products are available in each rating with a choice of 16 or 32A, and 3, 4 or 5 pin configurations.

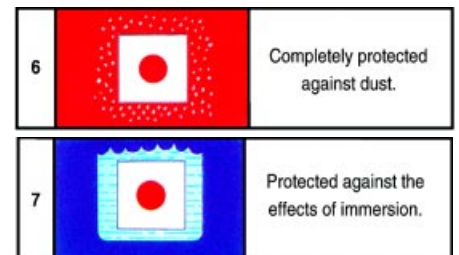

Both the IP44 and IP67 Range are fully modular and can be used with all standard 56 Series Products.

Clipsal Cat. No.	Description	<b>a</b> Dims/mm	Weight/gms
56SO316/6/44	Socket Outlet 3 Pin 16A 230V IP44 6 O'Clock	57	168
