

Our 56 Series DOL Starters now come with emergency braking

We've outdone ourselves again!

The revolutionary 56 Series DOL 9, 12 and 16 Starters have been redesigned with a new larger, high visibility stop button for faster response in an emergency.

This 40mm Mushroom Head button is an integral part of the lid and now comes standard with all models in the range at no extra cost.

Safety that's right on the button!

Impact, water, dust and UV resistant IP66 rated housing

Captive stainless steel combination head screws

Made right here in Australia

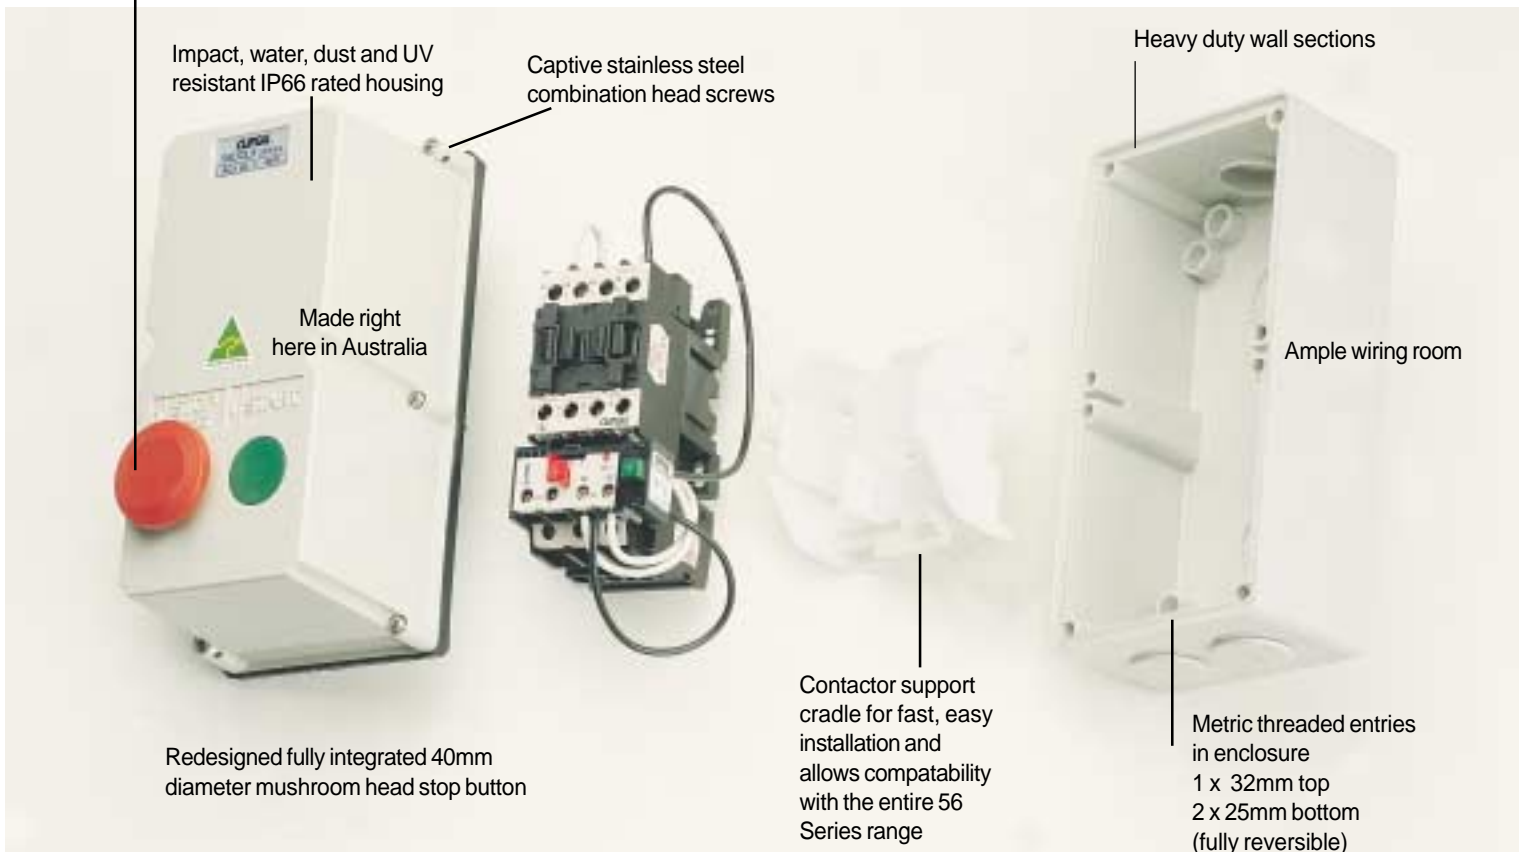

Heavy duty wall sections

Ample wiring room

Redesigned fully integrated 40mm diameter mushroom head stop button

Contactor support cradle for fast, easy installation and allows compatibility with the entire 56 Series range

Metric threaded entries in enclosure
1 x 32mm top
2 x 25mm bottom (fully reversible)

Safety, performance, flexibility & value for money

Modular flexibility

These motor starters can easily be linked to virtually any number of 56 Series modules in one enclosure. This avoids time wasting cable runs between separate equipment enclosures.

Easy wiring

Our minimum two gang enclosure ensures ample wiring room and entry for Australian Standard metric threaded conduits.

UV stabilised

Even in the harsh Australian sun, you can rely on the 56 Series' proven outdoor performance.

Heavy duty impact resistant enclosure

Base enclosure wall sections of 5-7mm combined with polycarbonate covers offer outstanding resistance to distortion and impact damage.

Hoseproof and dustproof to IP66

56DOL Series products are built tough to withstand the worst of Australia's harsh climate.

56 Series colour range

All 56 Series motor starter enclosures are available in UV stabilised light grey. Also available is a range of chemically resistant orange (RO) enclosures for environmentally aggressive locations such as chemical plants, timber & paper processing, dairies and food processing plants.

Available options

The new Clipsal 56DOL Series with Mushroom Head Stop Button is available in the following configurations for all your needs:

Specifications

Catalogue No.	Motor Rating	Description
56DOL9	4kW	DOL Starter, with overload, 2 push-buttons
56DOL9SW	4kW	DOL Starter, with overload, 2 push-buttons, isolating switch
56ROL9SD	4kW	Roller Shutter Door Version, 2 push-buttons (stop/reset & start, up/off/down) isolating switch
56ROL9SW	4kW	Reversing DOL Starter, with overload, 2 push-buttons, fwd/off/ rev. isolator
56DOL12	5.5kW	DOL Starter, with overload, 2 push-buttons
56DOL12SW	5.5kW	DOL Starter, with overload, 2 push-buttons and isolating switch
56ROL12SW	5.5kW	Reversing DOL Starter, with overload, 2 push-buttons, fwd/off/ rev. isolator
56DOL16	7.5kW	DOL Starter, with overload, 2 push-buttons
56DOL16SW	7.5kW	DOL Starter, with overload, 2 push-buttons and isolating switch
56ROL16SW	7.5kW	Reversing DOL Starter with overload, 2 push-buttons, fwd/off/ rev isolator

Spare parts

The above starters are available less enclosure (LE), e.g. 56DOL12SWLE.

Standard control voltages available for the above variations are 480, 415, 240, 110, 48, 32 & 24 Volts a.c. Also available with latching stop button to special order. (The buttons for this version are not an integral part of the cover.)
